RE: BMS QUARRY #2 – H2. SHPO Project #: 2010112909

Dear Carol:

I have conducted a cultural resource file search for the above-cited project located in Section 31, T20N R25W. According to our records there have been no previously recorded sites within the designated search locale. The absence of cultural properties in the area does not mean that they do not exist but rather may reflect the absence of any previous cultural resource inventory in the area, as our records indicated none.

Based on the lack of previous inventory and the ground disturbance required by this undertaking we feel that this project has the potential to impact cultural properties. We, therefore, recommend that a cultural resource inventory be conducted in order to determine whether or not sites exist and if they will be impacted.

If you have any further questions or comments you may contact me at (406) 444-7767 or by e-mail at [dmurdo@mt.gov](mailto:dmurdo@mt.gov). I have attached an invoice for the file search. Thank you for consulting with us.

Sincerely,

Damon Murdo  
Cultural Records Manager

## Project

**Description:**

## Quarry Natural Stone for Architectural + Landscaping Use

**Current Land Use:** Quarry

Agency Involved (ie: Private, DNRC, BLM): MT DEQ

**Land Ownership (Private, State, Federal, etc):** Private

County: Sanders

[illegible]

**Big Sky. Big Land. Big History.**

**Montana**  
**Historical Society**

***Please complete this form and attach a copy of the appropriate quad map showing the project location. Feel free to attach additional project information if available. All fields must be completed in order to process your request.***

### File Search Fee Structure

**1-3 Sections (\$25)**

**4-50 Sections (\$25 + \$5/Sec>3)**

**51-100 Sections (\$300)****101-200 Sections (\$400)**

### 201-300 Sections (\$500)

**> 300 Sections (Contact SHPO)**

All sections must be added up and entered in to the box below before a file search will take place.

An invoice will be sent with your file search results.

**Total Sections to be searched:**

**1**

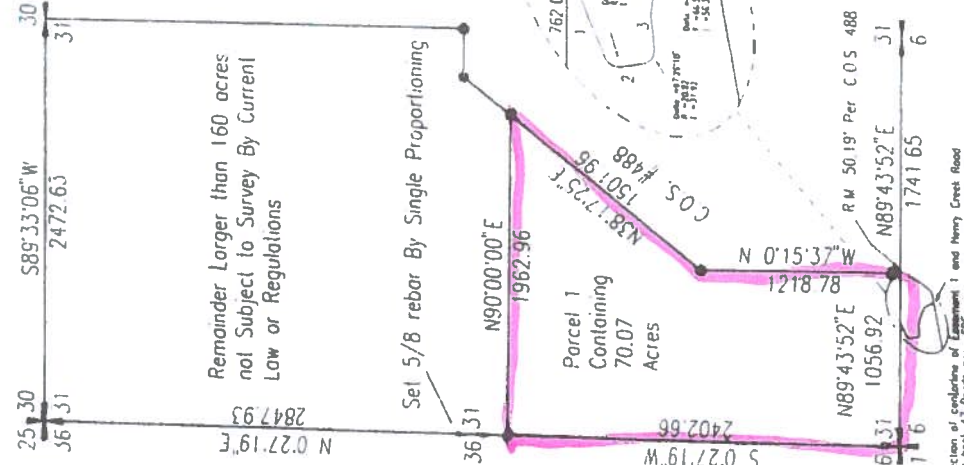

**Total amount to be paid to SHPO:**

**\$25.00**

Basic Weed Management Plan Overview for open pit mining in Sanders County

1. FIRST PHASE: Site location and responsible parties for the proposed pit will be acknowledged.

A complete list of county and state classified Noxious Weeds present in the pit and banking areas has to be made prior to any soil disturbance.

A comprehensive weed management plan with described methods of control and implementation techniques will also have to be written prior to any soil disturbance.

Sanders County Weed District will survey proposed site and offer, if needed, any suggestions that will help in the creation of a comprehensible weed management plan.

First Phase 2nd Approval: Proof of weed control efforts prior to any disturbance in the pit site will have to be provided to a representative of the Weed District.

County and State listed Noxious Weeds must be maintained throughout duration of pit use by those parties responsible for the removal of pit contents and the land owner.

2. SECOND PHASE: Once the content of the pit is removed, pit must be filled or landscaped and all original top soil/sod replaced to origin.

Replaced top soil/sod, should be undisturbed for at least one growing season. Then a follow up survey of Noxious Weeds will be done by the Weed District. Once the survey has established which Noxious Weeds exist, appropriate measures will be taken to eradicate the weeds.

Chemical, or Mechanical measures will suffice, however, chemical treatments on pit sites are usually preferred and is most cost effective. Biological Control Agents on these particular sites are not considered a feasible means of eradication.

After implementation of the Pit Plan and final weed eradication efforts have been made, in a case where there is a private land owner or governmental land owner, all future weed efforts will be directed to the land owner or governmental office overseeing the reclaimed site.

---

The FIRST and SECOND PHASE of the Open Pit Mining Weed Management Plan is on the following pages and will be filed with the County's Weed District Office as soon as the first portion of the Plan has been approved by the Weed District. At which time the "OPMWM Plan" can be sent to the State or other pertinent parties for approval, if necessary.

Sanders County  
Open Pit Mining Weed Management Plan  
(OPMWM Plan)

FIRST PHASE

Current Date 11-14-2011

Pit Name Bms Quarry #2 - H2

Pit Location 1/4 1/4, Sec. 31, T. 20 N/S, R. 25 E/W  
1/4 1/4, Sec. \_\_\_\_\_, T. \_\_\_\_\_ N/S, R. \_\_\_\_\_ E/W

See map

The current land owner(s) is/are required to sign below.

\*Current land owner(s), signature: Block Mountain Slate + Stone, Inc.  
\* Juan B. Welch

Any County, State, Federal, or Private party responsible for the actual pit contents removal needs to acknowledge their involvement and responsibility in this Open Pit Mining Weed Management Plan by signing on the lines below. Please indicate title, position, or department if working for the County, State, or Federal Government. If you are a private entity please indicate your business name, position, or your general information.

Signature of Responsible Parties or Department(s) during pits content removal:

\*Signature: Juan B. Welch

\*Signature: \_\_\_\_\_

\*Signature: \_\_\_\_\_

\*Signature: \_\_\_\_\_

\*For the duration of the pit's content removal, regardless of the time it takes, all involved parties as signed above including the land owner, carry the responsibility of maintaining all county and state listed Category Noxious Weeds as stated in the Montana State Weed Law and County Weed Management Plan.

1.) Please note that if the counties Weed District is wanted to assume responsibility for the application of herbicide, or any other weed control efforts with in the pit site, the District will enter into an agreement with the Responsible Parties or Department as long as they are a Governmental entity.

2.) The County Weed District will not finalize this document until the plan has been fallowed through completely, proof of weed control activities has been verified, and the Responsible Parties or Department(s) requests final approval of the OPMWM Plan. (Refer to page 6, SECOND PHASE)

**Sanders County**  
**Open Pit Mining Weed Management Plan**

Please list all county and state listed Category Noxious Weeds present prior to top soil /sod removal in both the pit and banking area.

(There is a reference of county and state listed Noxious Weeds on page 7 & 8.)

Pit Area \_\_\_\_\_

Banking Area On Access Roads

Canadian Thistle

Darnation Toadflax

Tansy Ragwort

Spotted Knapweed

Approximate date of top soil/sod removal for banking Unknown - It was previously  
 (Please indicate approximate time by month and year.) Quarried prior to us purchasing.  
It is mostly Rock terrain.

Proposed weed control methods to be used on pit site through the duration of the pit contents removal:

In the Spring we use Tordon and 24D. This is  
sprayed by a licensed individual. Hand pulling  
is done during operation.

**Sanders County**  
**Open Pit Mining Weed Management Plan**

Before the OPMWM Plan can be initiated there will be:

**A.** A site evaluation done by a representative of Sanders County Weed District.

**B.** A review of the plan by the District Weed Board/Coordinator.

If needed, helpful suggestions from the Weed District may be made to better or improve the plan according to the geography, environmental factors of the site, and the Noxious Weed species found there.

This Plan is intended to be initiated as soon as first approval has been made and before any top soil/sod has been moved within the pit site. This will ensure a reduction in weeds within the top soil before any movement of pit contents occurs.

**FIRST PHASE APPROVAL:**

After review of the proposed Open Pit Mining Weed Management Plan, and as a representative of the Sanders County Weed District, my signature below assures that the developed plan meets or exceeds the expectations of the Sanders County Weed District and its counties Weed Management Plan as well as the States integrated Noxious Weed Management Plan.

**IMPORTANT:**

*Proof of weed control efforts prior to any disturbances within the pit must be verified with the Weed District. The signature of a Weed District Representative on the **FIRST PHASE 2<sup>ND</sup> APPROVAL** section below is required to continue with pit contents removal.*

Signature for plan approval by Sanders County Weed District Representative:

Signature: \_\_\_\_\_

Date: \_\_\_\_\_

**FIRST PHASE 2<sup>ND</sup> APPROVAL**

The signature of the Weed District Representative below indicates that the Responsible Parties or Land Owner has completed the FIRST PHASE of the Open Pit Mining Weed Management Plan by providing proof of weed control efforts being made in the named pit (on page 2) prior to any top soil/sod disturbance.

Signature of Weed District Representative for **FIRST PHASE 2<sup>ND</sup> APPROVAL**:

Signature: \_\_\_\_\_

Date: \_\_\_\_\_

**Sanders County**  
**Open Pit Mining Weed Management Plan**

**SECOND PHASE**

Once the removal of the pit contents has been completed and the top soil/sod has been replaced, a time period of one growing season or twelve months must be allowed to lapse before final inspection and final weed control activities take place. This will allow for any germination or growth of Noxious Weeds that may be present in the pit and banking areas after disturbance has occurred.

# Montana Noxious Weed List

Effective: January 2010

**Priority 1A** – These weeds are not present in Montana. Management criteria will require eradication if detected; education; and prevention.

\*YELLOW STARHISTLE (*centaurea solstitialis*)

**Priority 1B** – These weeds have limited presence in Montana. Management criteria will require eradication or containment and education.

\*DYER'S WOAD (*isatis tinctoria*)

\*FLOWERING RUSH (*butomus umbellatus*)

\*JAPANESE KNOTWEED COMPLEX (*polygonum* spp.)

\*PURPLE LOOSESTRIFE (*lythrum* spp.)

\*RUSH SKELETONWEED (*chondrilla juncea*)

\*EURASIAN WATERMILFOIL (*myriophyllum spicatum*)

\*SCOTCH BROOM (*cytiscus scoparius*)

\*CURLYLEAF PONDWEED (*potamogeton crispus*)

**Priority 2A** – These weeds are common in isolated areas of Montana. Management criteria will require eradication or containment where less abundant. **Management shall be prioritized by local weed districts.**

\*TANSY RAGWORT (*senecio jacobaea*)

\*MEADOW HAWKWEED COMPLEX (*hieracium* spp.)

\*ORANGE HAWKWEED (*hieracium aurantiacum*)

\*TALL BUTTERCUP (*ranunculus acris*)

\*PERENNIAL PEPPERWEED (*lepidium lanfolium*)

\*YELLOWFLAG IRIS (*iris pseudacorus*)

\*BLUEWEED (*echium vulgare*)

\*HOARY ALYSSUM (*berteroa incana*)

**Priority 2B** – These weeds are abundant in Montana and widespread in many counties. Management criteria will require eradication or containment where less abundant. **Management shall be prioritized by local weed districts.**

\*CANADA THISTLE (*cirsium arvense*)

\*FIELD BINDWEED (*convolvulus arvensis*)

\*LEAFY SPURGE (*euphorbia esula*)

\*WHITETOP (*cardaria draba*)

\*RUSSIAN KNAPWEED (*centaurea repens*)

\*SPOTTED KNAPWEED (*centaurea stoebe* or *maculosa*)

\*DIFFUSE KNAPWEED (*centaurea diffusa*)

\*DALMATION TOADFLAX (*linaria dalmatica*)

\*ST. JOHNSWORT (*hypericum perforatum*)

\*SULFUR CINQUEFOIL (*potentilla recta*)

\*COMMON TANSY (*tanacetum vulgare*)

\*OXEYE DAISY (*chrysanthemum leucanthemum* or *leucanthemum vulare*)

\*HOUNDSTONGUE (*cynoglossum officinale*)

\*YELLOW TOADFLAX (*linaria vulgaris*)

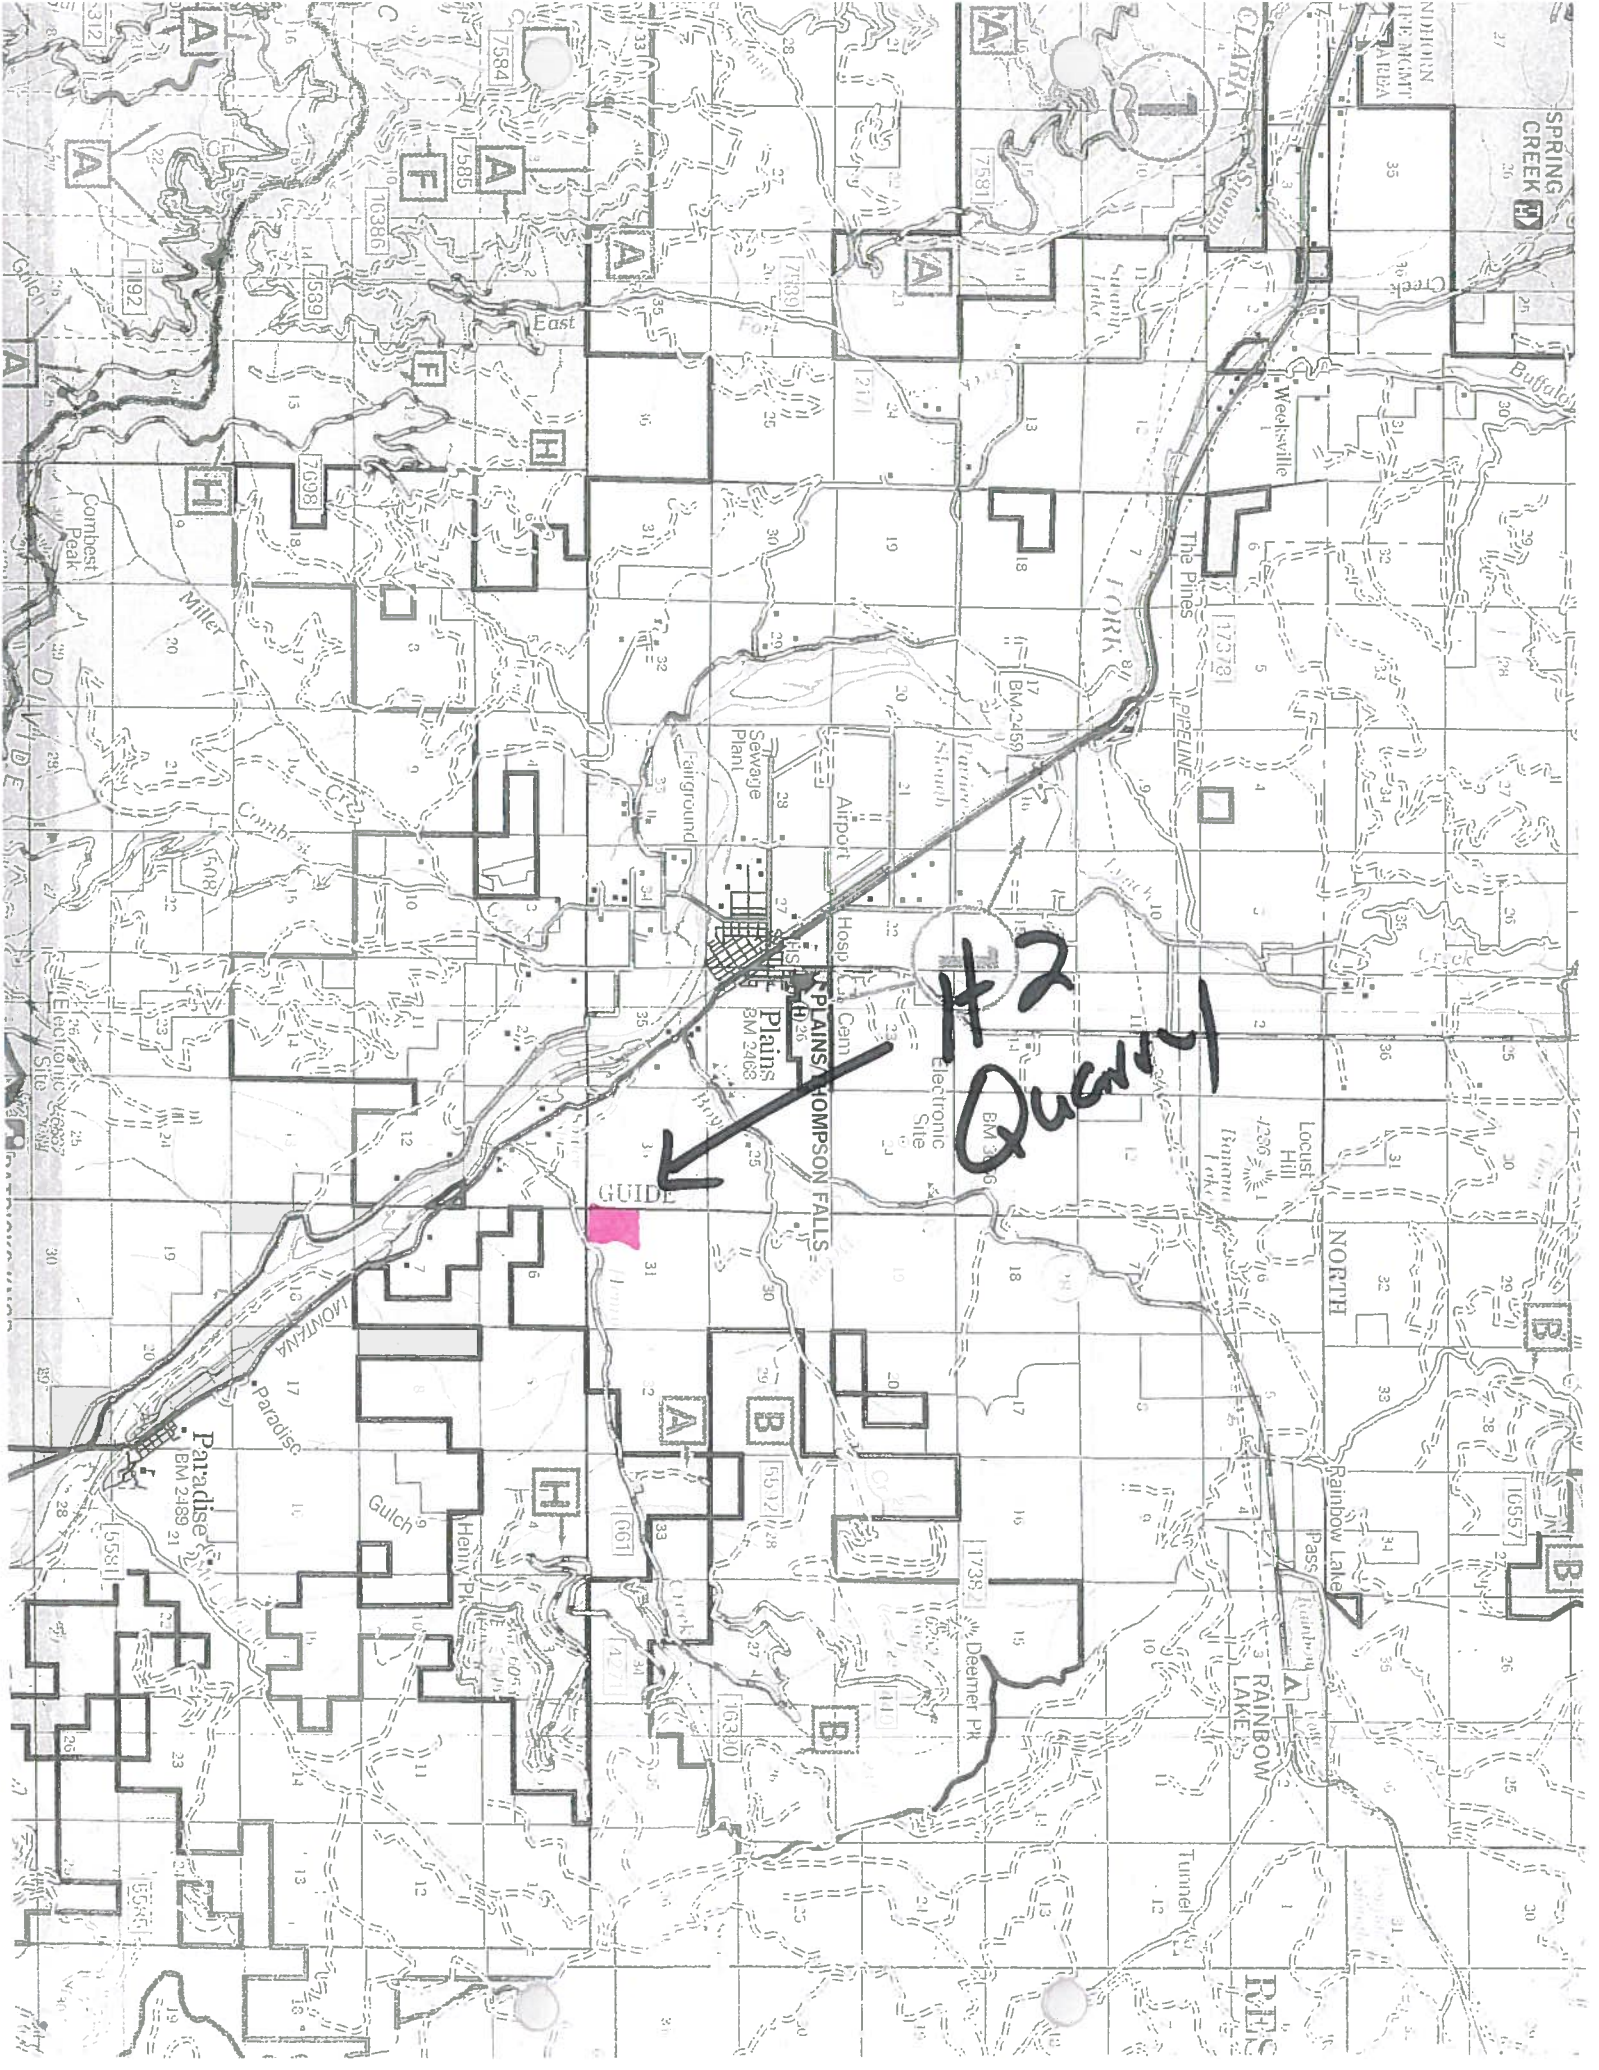

\*SALT CEDAR (*tamarix* spp.)

### **Priority 3** – Regulated Plants: (NOT MONTANA LISTED NOXIOUS WEEDS)

These plants have the potential to have significant negative impacts. The plant may not be intentionally spread or sold other than as a contaminant in agricultural products. The state recommends research, education and prevention to minimize the spread of the regulated plant.

\*CHEAT GRASS (*bromus tectorum*)

\*HYDRILLA (*hydrilla verticillata*)
